

BUMBLE 1.2

1.2kW e-Scooter DC EV Charger Compact & Convenient: The Perfect Home Charger

Scenarios

Specifications

Type		Wall-mounted/ Stand-alone
Input		Single-Phase 220VAC 50/60Hz <10A
Output		40-120VDC 1.2kW (Max.)
User Interface		Button Operation
Back-End Communication		RS-485
Ingress Protection		IP55
Mechanical	WxDxH	263mm x 193mm x 364mm
	Weight	≤ 8 kg (Charging cable not included)
Protection		Overcurrent / Overvoltage / Undervoltage / Insulation detection / Overtemperature / Short circuit / Ground Fault Protection / Surge Protection / Residual Current Protection
Regulation Compliance		CNS 16128
Charging Time		1.5-3 hrs.

01 Certified Safety Standards

Complies with IEC and CNS DC regulations with built-in multi-layer protection for every safe charge.

02 Space-Saving Installation.

Wall-mounted or pedestal options-ideal for communities, parking lots, and hotels.

03 User-Friendly Interface

5" LCD screen, LED indicators, and physical buttons make charging simple and intuitive.

04 Optional Cloud Connectivity

Upgrade to smart remote management and payment integration-perfect for small-scale deployments.

05 Customizable Design

Support for personalized branding and nameplates-turn your charger into a statement piece.
